

SECURITY POSTURE ASSESSMENT SERVICE

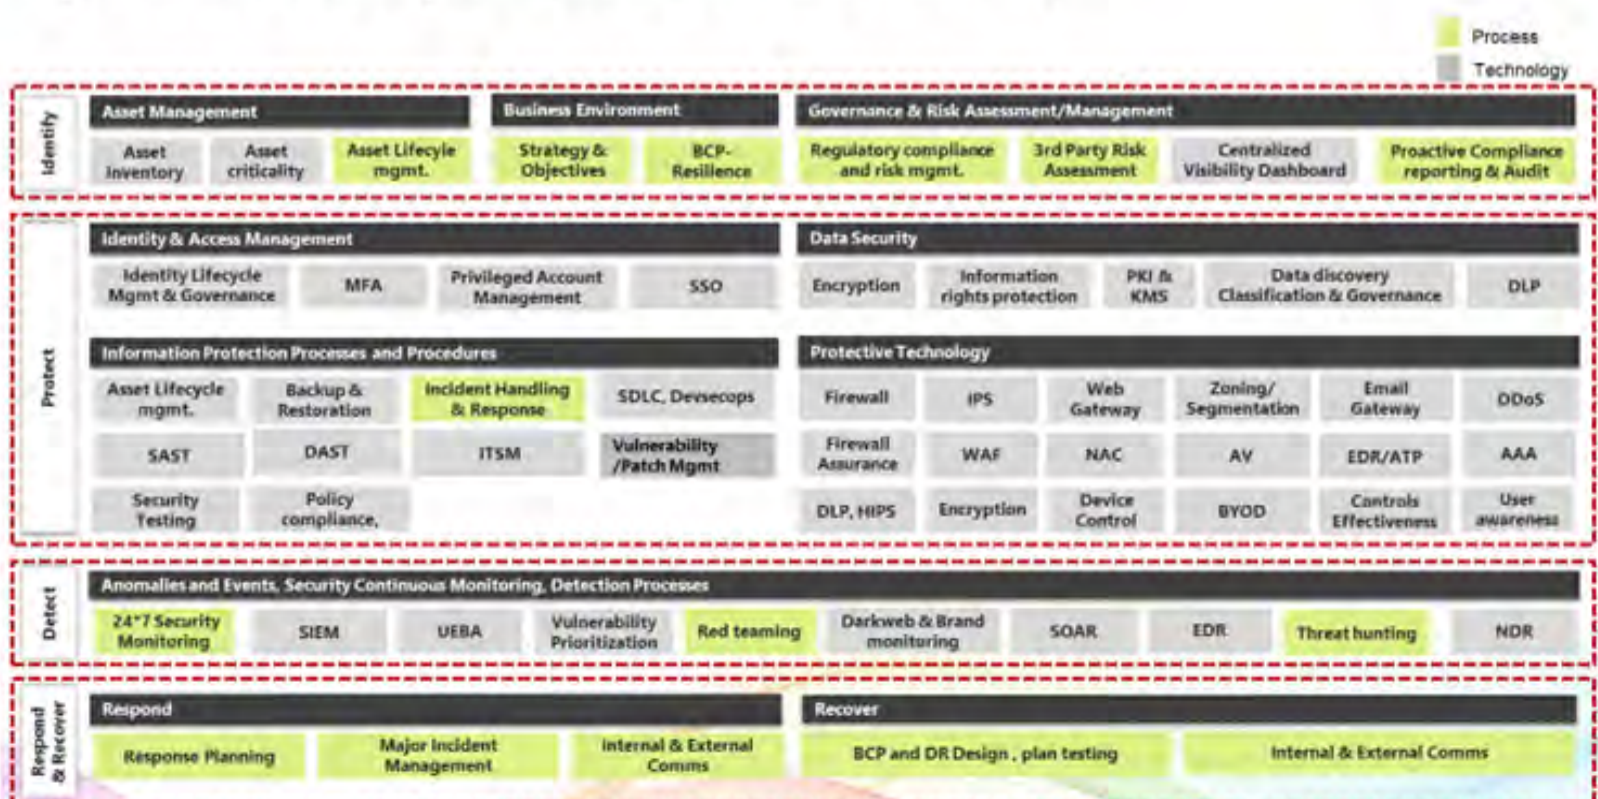

Define the roadmap to enhance your security posture

Introduction

Noventiq is a leading global solutions and services provider in digital transformation and cybersecurity. We help organizations to transform and operate efficiently and securely in an increasingly digital economy. We are committed to delivering for our customers wherever they are using our globally accumulated knowledge and proficiency.

Noventiq has a dedicated team of experts offering Governance, Risk and Compliance (GRC) services. The Security Posture Assessment service comprehensively evaluates your current security measures, identifying vulnerabilities and weak spots in your networks, systems, and policies. By understanding your current security stance, you can prioritize actions to mitigate risks, ensure that your resources are effectively allocated towards the most critical areas, and define a roadmap for short-, mid- and long-term strategic cybersecurity initiatives.

Cyber Security Posture Assessment

Scope of the service

Here's an outline of the typical areas covered. This can be customised as per the organisation's business, structure and requirements.

- **Network Security Analysis**
- **Network Security Analysis**
- **Data Security and Privacy**
- **Policy and Compliance Review**
- **Identity and Access Management (IAM)**
- **Threat and Vulnerability Management**
- **Incident Response and Management**
- **Physical Security Measures**
- **Employee Security Awareness and Training**
- **Third-Party and Supply Chain**
- **Cloud and Remote Work Security**
- **Penetration Testing (Optional)**

DELIVERABLES

The output from a Security Posture Assessment is typically a detailed report providing insights into the current cybersecurity status and recommendations for improvement. This comprehensive approach helps organisations understand their security strengths and weaknesses, allowing them to make informed decisions to enhance their overall cybersecurity posture.

BENEFITS TO CUSTOMER

- **Identifying and prioritizing threats and vulnerabilities**
- **Enhancing overall security posture**
- **Ensuring compliance with regulations and standards**
- **Reducing the risk of data breaches and cyber attacks**
- **Safeguard your business against potential legal and financial repercussions**
- **Get detailed insights and actionable recommendations to protect your valuable data and assets**
- **Strengthen your reputation and trustworthiness in the eyes of clients and partners**

Opting for a Cybersecurity Posture Assessment service is a strategic move for any organisation seeking to fortify its defences against the ever-evolving landscape of cyber threats. A Cybersecurity Posture Assessment is not just a check-in for your current security; it's a roadmap for a more secure and resilient future.
