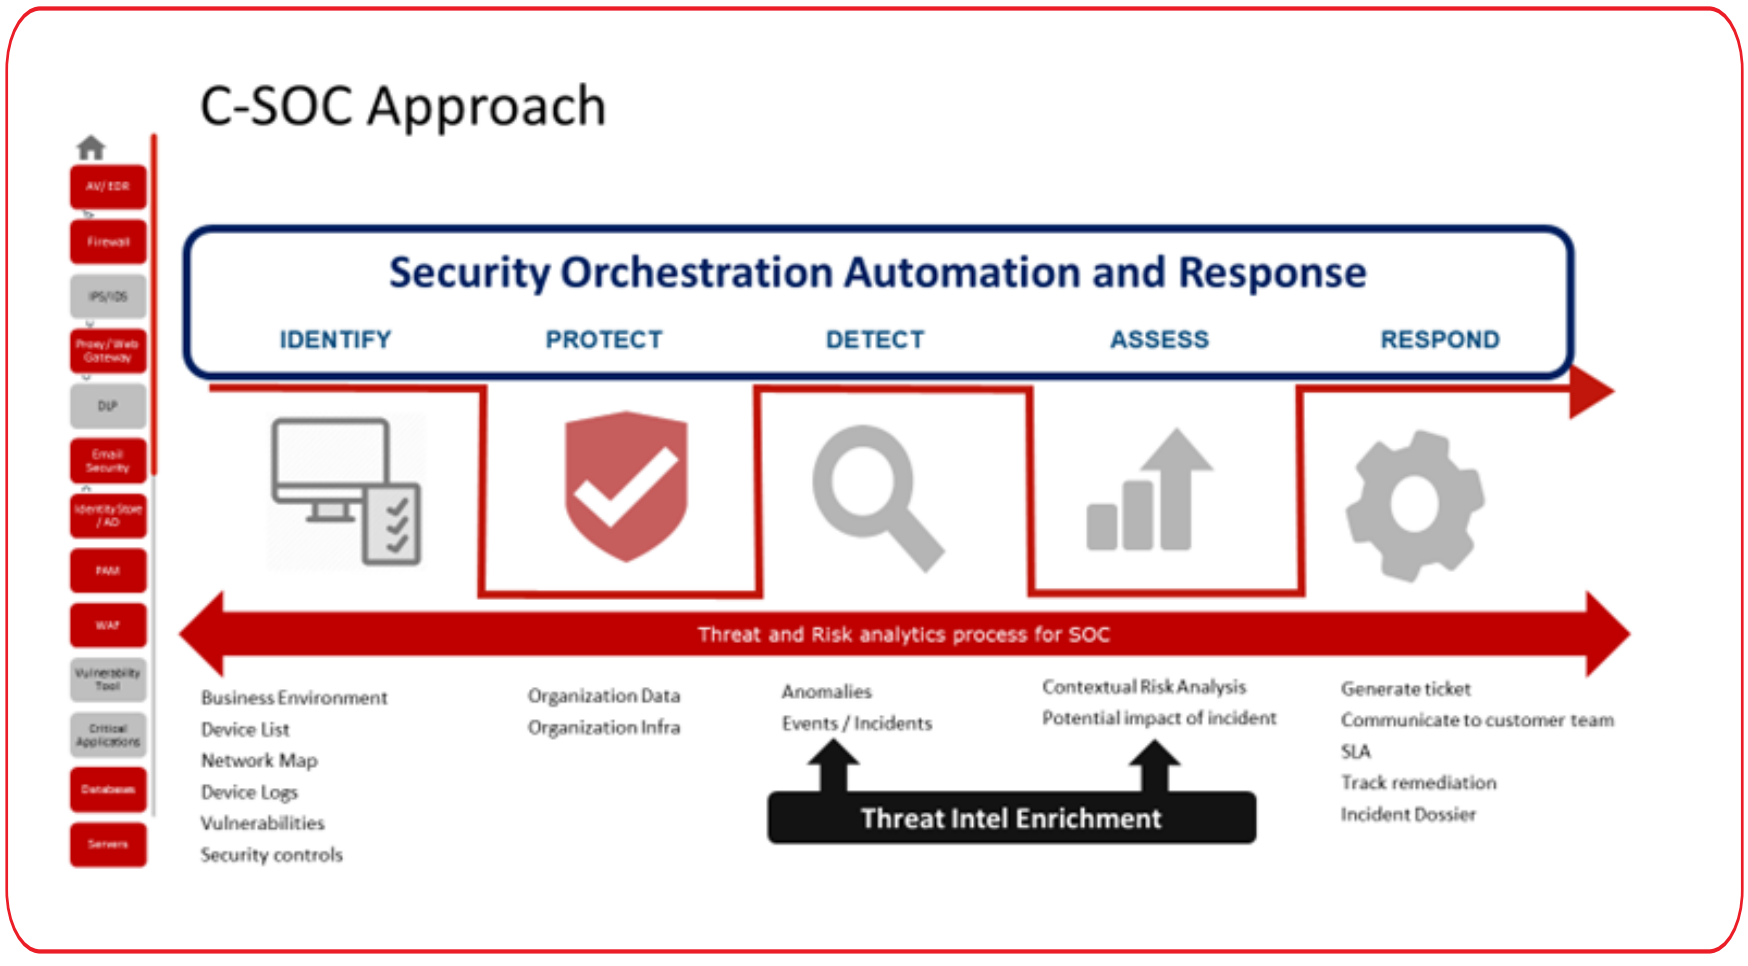
SECURITY OPERATIONS CENTRE (SOC) SERVICES

Your security is our business

Introduction

Noventiq is a leading global solutions and services provider in digital transformation and cybersecurity. We help organizations to transform and operate efficiently and securely in an increasingly digital economy. We are committed to delivering for our customers wherever they are using our globally accumulated knowledge and proficiency.

Noventiq has been operating its own Security Operations Centre by Value Point System (Value Point SOC), offering 24x7x365 services to its customers. Staffed by a team of 40+ engineers and running industry-leading SIEM platforms, Noventiq SOC serves customers in the banking, financial, manufacturing, pharmaceutical, ITES and other sectors.



Key Features

- 24x7 monitoring of events and alerting on security incidents
- Parsers are available for all standard systems and custom parser development supported
- Over 1000 Rules out-of-the-box to providereal-time monitoring and detection of beaconing, host compromise, malware infection, unauthorised access, data exfiltration, privilege misuse and more
- Advanced functionalities available include * Cyber Threat analytics * Insider Threat analytics *Cloud Infrastructure Analytics * Cloud Data Analytics * Cloud Application Analytics
- Built-in UEBA to detect event rarity and peer anomaly
- Log Enrichment with threat intelligence
- Threat hunting using identified IOCs
- Advanced Threat Models to improve signal-to-noise ratio
- Compliance monitoring, reporting and notification
- Industry-standard SLA's for P1/P2/P3 incidents
- Support for the creation of custom use cases, dashboards and reports
- Roadmap includes advanced features such as SOAR

Technology Stack& Deliverables

Valuepoint SOC runs three industry-leading platforms featured in the leaders quadrant of Gartner's Magic Quadrant for SIEM framework. We follow the NIST Cybersecurity Framework for incident handling and support mapping to the MITRE ATT&CK framework.

IBM QRadar | SECURONIX | Microsoft Sentinel

Benefits to customer

- **Enhanced Security Posture:** Continuous monitoringensures a strengthened security posture, helping to protect against, detect, and respond to cybersecurity threats in real time.
- **Compliance Management:** Assistance in meeting and maintaining compliance with various regulatory standards like GDPR, ISO 27001, SEBI, IRDA or other industry-specific regulations.
- **Cost-Efficiency:** It is more cost-effective than building and maintaining an in-house security operations centre, saving on infrastructure, technology, and personnel costs.
- **Access to Expertise:** Access to a team of cybersecurity experts with specialised knowledge and experience, ensur-ing capable hands defend your network.
- **24/7 Monitoring:** Around-the-clock monitoring to promptly identify and respond to security incidents, minimising potential damage.
- **Remediation Guidance:** To mitigate the impacts of security breaches and ensure rapid recovery.
- **Advanced Threat Intelligence:** Utilisation of advanced threat intelligence to stay ahead of emerging threats and vulnerabilities.
- **Scalability:** ValuepointCloud-based SOC services grow with your business, ensuring continued security irrespective of the size and scale of operations.
- **Detailed Reporting:** Regular reports and analysis to provide insight into the security landscape, helping in informed decision-making to neutralise threats
