

## VIRTUAL CISO (VCISO) SERVICE

### Expert Cybersecurity Leadership on Demand

#### Introduction

Noventiq is a leading global solutions and services provider in digital transformation and cybersecurity. We help organizations to transform and operate efficiently and securely in an increasingly digital economy. We are committed to delivering for our customers wherever they are using our globally accumulated knowledge and proficiency.

Noventiq has a dedicated leadership-level team of experts offering Governance, Risk and Compliance (GRC) services. The Virtual CISO (vCISO) service is one of our key services. Customers who require a CISO to handle their security posture but do not have the immediate requirements or budgets for a full-time CISO can benefit from this service.

## Services Offered by vCISO

---

- Strategic cybersecurity planning
- Policy and compliance management
- Risk assessment and management
- Incident response planning and coordination
- Staff training and awareness programs
- Vendor and technology management
- Responding to RFP queries on Security
- Interfacing with External Audit team
- Executive Reporting and Presentation

## Customization and Flexibility

---

- Tailored services to fit the specific needs of different organizations
- Flexible engagement models (e.g., part-time, project-based)

## Benefits to customer

---

- VCISO is the interface between Executive Management / Board and stakeholders
- Facilitates the organization to keep up with regulatory requirements & breach notifications
- Represents cybersecurity preparedness to clients and auditors
- Plans for responses to incidents and risks faced by the organization
- Has Expertise in various industry-specific standards to drive compliance
- Cost-effective compared to a full-time CISO
- Access to a pool of expertise and experience
- Flexibility and scalability of service
- Enhanced cybersecurity posture
